## EDUCATION

**HCMC University Technology and Education**

*Bachelor's degree in Information Technology Engineering*

**Ho Chi Minh City, Vietnam**

*09/2018 - 12/2022*

## SUMMARY

Thank you for taking the time to review my CV. As a skilled Web Development with over four years of experience, I specialize in building high-performance, scalable, and user-friendly web applications. Proficient in modern technologies like React, Microfrontend, I excel at crafting seamless user experiences and optimizing frontend architectures. Beyond coding, I am committed to continuous learning, problem-solving, and delivering impactful solutions that improve both product quality and team efficiency.

## TECHNICAL SKILLS

### Languages & Frameworks:

- JavaScript(ES6+) Proficient, TypeScript, HTML5, Dart
- React.js Proficient, Next.js, Flutter
- Redux, BLoC(Flutter)

### Styling & UI Frameworks:

- CSS, SCSS, Bootstrap, Reactstrap, MaterialUI, Highcharts

### Build Tools & Testing:

- Webpack, Vite, Babel, Nx (Monorepo Management)
- Jest, React Testing Library

### Source Control & CI/CD:

- Git, Github, GitLab, Fastlane

### API & Backend Integration:

- RESTful APIs, WebSockets, Firebase, Axios

### Project Management & Methodologies:

- Agile/Scrum, Jira, Trello, Microfrontend Architecture

## WORK EXPERIENCE

### Frontend Developer

*Viettel AI & Data Services Center*

*09/2022 - Present*

- Maintain and develop the Reputa website and mobile application, managing multiple frontend modules to ensure performance and scalability.
- For website development, I use **React** as the core framework, **Jest** for unit testing, **Redux** for state management, **Webpack** for bundling, and **GitLab** for version control.
- For mobile development, we build hybrid applications using **Flutter**, leveraging **BLoC** for state management and **Fastlane** for CI/CD automation.
- Collaborating on refactoring the website into a **microfrontend architecture**, managing it as a **monorepo with Nx**.
- Mainly responsible for building frontend modules for government projects, including the **Information Collection and Exploitation System for the Party Central Committee**, ensuring secure and seamless system operations.

## Associate Professional Software Engineer

DXC Technology Vietnam

12/2021 - 08/2022

- Responsible for maintaining and developing new intuitive, responsive user interface features using:
  - \* **Angular** and **Bootstrap** for modern user interface design and responsiveness.
  - \* **Spring Boot** for create API and integrate with backend services via the **RESTful API** protocol, ensuring seamless communication and user experience.

## Fullstack Developer Intern

DayOne Technology

09/2021 - 11/2021

- Responsible for maintaining and developing new intuitive, responsive user interface features using:
  - \* **React** and **Bootstrap** for modern user interface design and responsiveness.
  - \* **Express.js** for create API and integrate with backend services via the **RESTful API** protocol, ensuring seamless communication and user experience.

## PROJECTS

---

### Project: Reputa

Social Listening

09/2022 - Present

- *Description:* **Reputa** is a social listening and reputation monitoring platform. The platform provides detailed reports and interactive dashboards, helping businesses measure brand awareness and campaign effectiveness. By leveraging advanced technologies such as AI, machine learning, and natural language processing, Reputa delivers comprehensive solutions for social listening, research, and communication planning.
- *Responsibilities:* **Developing and optimizing** frontend modules including core modules, internal administration tools and mobile application.
- *Technologies used:* **React, Redux, Webpack, Reactstrap, Highcharts, Jest, React Testing, Flutter**

### Project: Great Eastern Life

Insurance

09/2021 - 08/2022

- *Description:* **Great Eastern Life** offers a diverse range of insurance products to cater to various needs.
- *Responsibilities:* **Developing** features that integrate both backend and frontend for the product.
- *Technologies used:* **Angular, Redux, Bootstrap, Spring Boot**
